

Duration 3 Year
Red Clover

- Strong resistance to
 Aphanomyces Root Rot (R)
 Northern Anthracnose (HR)
 Southern Anthracnose (HR)
 Common Crown Roots (R)
 Powdery Mildew (R)
- Excellent choice for wetter and lower fertility soil types that alfalfa can't tolerate.
- Higher yields and more disease resistance than Marathon, RedStar and Arlington.
- Performs great under forage production or rotational grazing.

Farm Pro Duration 3 Year Red Clover was developed to have excellent winter hardiness, high yields and disease resistance, combined with strong spring green up and fast recovery after each cutting. With good pasture management practices and accommodating weather patterns, **Farm Pro Duration Red Clover can perform** from 3 to 5 years.

Pasture Mixes

Pasture Mixes

- | | Sizes |
|------------------|--------------|
| • 1 Tofar | 50, 25 |
| • 2 Regular | 50, 25 |
| • 3 Grass | 50, 25 |
| • 4 Horse | 50, 25 |
| • 5 Prem. Horse | 50, 25 |
| • 6 Hay | 50, 25 |
| • 7 Horse Select | 50, 25 |
| • 9 Alpaca | 25 |
| • Reclamation | 50 |

Timothy

- | | Sizes |
|-----------------------------|--------------|
| • EM Timothy (Early Mature) | 50 |
| • LM Timothy (Late Mature) | 50 |

Sorghum Sudangrass

- | | Sizes |
|------------------------|--------------|
| • BMR Sweeter N' Honey | 50 |

RED CLOVER

Duration 3 Year
 Red Clover

www.centralfarm.com

300 ML

- Excellent forage yield potential
- Superior forage quality
- High multifoliate leaf expression
- Unmatched winter hardiness and persistence
- Perfect 30 out of 30 Disease Index

Farm Pro 300 ML is a remarkable new alfalfa variety that raises the bar higher than ever before. With an unmatched winter hardiness rating and a 4 for fall dormancy.

Farm Pro 300ML performs well over a wide range of environmental conditions and is adapted to all areas where 3 and 4 fall dormancy varieties are planted.

Farm Pro 300 ML also features excellent resistance to stem and root knot nematodes. Whether it's for exceptional forage yields, superior forage quality or very fast recovery after cutting,

Farm Pro 300 ML is the choice for commercial hay, beef and dairy producers.

Characteristics

Fall Dormancy	4.0
Winter Survival	1.0 (Superior)
Disease Rating	30/30
Recovery	Very Fast

Hopper Stop

- High resistance to Potato Leafhopper
- High yield potential
- Excellent forage quality and increased palatability
- Glandular haired
- Perfect 30 out of 30 Disease Index

Farm Pro Hopper Stop is a third generation of Potato Leafhopper resistant alfalfa. According to University studies, a correlation was found between using glandular haired alfalfas and improved dry matter intake, rate of digestions and milk production.

Combine these advantages with **Farm Pro Hopper Stop's** superior relative feed values in sprayed or unsprayed conditions and you have an alfalfa with unmatched potential.

Characteristics

Fall Dormancy	3.5
Winter Survival	2.5 (Very Good)
Disease Rating	30/30
Recovery	Fast

Grazer DP

- Dual purpose alfalfa hay or graze
- Wide, deep set crowns
- Stands up to wheel traffic pressure
- High yield potential
- Superior winter hardiness and persistence.

Farm Pro Grazer DP is bred to have deep set crowns. The deep set crown trait helps insulate the crown in severe winter weather and protect it from both animal and equipment traffic.

This versatile variety is ideal for 3 to 4 cut management systems where wheel traffic is a concern or for intensive livestock grazing year after year.

Providing high hay yields, great forage quality and an excellent disease and insect resistance package, **Farm Pro Grazer DP** provides flexibility to optimize management decisions.

Characteristics

Fall Dormancy	4.0
Winter Survival	2.0 (Very Good)
Disease Rating	28/30
Recovery	Very Fast

AlfaPro

Farm Pro AlfaPro has a high resistance to Bacterial Wilt, is very winter hardy with excellent disease and pest resistance.

Farm Pro AlfaPro is well adapted to the hard winters of different soil types in the Midwest and is well suited for medium to long rotations and is excellent for dairy and beef producers.

Characteristics

Fall Dormancy	4.0
Winter Survival	2.0 (Very Good)
Disease Rating	30/30
Recovery	Fast

Disease Resistance Index

Variety	FD	WS	PRR	VW	A	BW	FW	AP	PA	PLH	Total DRI
Farm Pro 300 ML	4.0	1.0	HR	HR	HR	HR	HR	HR	HR	MR	30/30
Farm Pro Hopper Stop	3.5	2.5	HR	HR	HR	HR	HR	HR	HR	HR	30/30
Farm Pro Grazer DP	4.0	2.0	HR	R	HR	HR	HR	R	R	NR	28/30
Farm Pro AlfaPro	4.0	2.0	HR	HR	R	HR	HR	HR	R	NR	30/30

Rating Codes:

FD = Fall Dormancy
 WS = Winter Survival
 PRR = Phytophthora Root Rot
 VW = Verticillium Wilt
 A = Anthracnose

BW = Bacterial Wilt
 FW = Fusarium Wilt
 AP = Aphanomyces
 PA = Pea Aphid
 PLH = Potato Leaf Hopper

HR = High Resistance
 R = Resistance
 MR = Moderate Resistance
 LR = Low Resistance

HR = 5
 R = 4
 MR = 3
 LR = 2
 S = 1
